

• **Big Data** • **Mobility** • **Cyber Security** • **Enterprise Infrastructure**

Business Brings Challenges.

WE SOLVE THEM WITH SMART TECHNOLOGY.

Alesig Consulting, LLC (Alesig) is an EDWOSB and Minority Owned Small Business based in the National Capital Region.

We provide emerging IT solutions to our Federal, state, and regional government and civilian agencies as well as private sector customers. Our solutions are based on solid experience, cost-saving strategies, and high standards for excellence.

We use a win-win approach that focuses on four key elements:

- Clear, concise communication and identification of requirements
- Building strong and productive partnership with our employees, teaming partners, and customers
- Working collaboratively to stimulate innovation in our design and development solutions
- Creating technologies that propel our customers forward with tools that add value and facilitate efficient, timely data collection and analysis
